What is the best bet on basketball?

The three most popular basketball

betting markets which are similar across all 'American' sports are Money Line picks, Points spread predictions and Game Totals bets. These main markets are covered here on OLBG with free basketball betting tips. Here is a brief description of the bet types:

Money Line is a straight-win bet, a home win or away win. So for example, if you are looking for teams to win the game with the NBA tips these are Money Line predictions.

Points spread is the Asian Handicap of the basketball world, you are given a handicap each time (i.e. -3 and +3) meaning the team has to outscore the handicap. If a team is given a handicap of -3 then they have to win by at least 4 points to win the handicap,

should they win by 3 then the bet would be pushed which is a stake refund.

Game Totals is as it says on the tin!

The basketball betting tips will go with either an under or an over of a set line. That line indicates the total number of points scored in the game (both home and away). So a line of 216.50 would require at least 217 points for the over to win.

For all three

betting markets, overtime is included for settlement purposes. If unsure, we always advise you to check your bookie's basketball settlement rules before placing your basketball wagers.

General Basketball Betting Advice

As regards any type of sports

betting, we suggest starting out with sports you are familiar with and basketball betting is no different. Focus on leagues where there is good coverage of information available like the NBA, being armed with team stats and facts is a good starting point to build confidence in the bets you make and we would always advise you to only stake what you are comfortable with and within your means. Our basketball tipsters will generally ensure they have all the team stats, facts, injury news and any other potentially bet-deciding factors to hand before placing their NBA tips tonight.

If you

would like more information on basketball betting then take a few minutes to read our Basketball betting advice guide which looks at the various basketball betting markets in more detail and basketball betting in general to help you gain a better understanding of how basketball betting works before you set out and place your bets.
