Visit Casino Websites: Check the websites of established online casinos like HotSlots. Most casinos have a "New Games" or "Recent Releases" section that showcases their latest additions.

Top Picks of New Online Casino Games

As we've mentioned above, new slot titles are constantly being released, which means that the following games might not be the 'newest' casino games yet.

All the information we've detailed below is correct at the time of writing and may be subject to changes by the game production companies.

Unmissable New Online Slot Games

Now's the time fans of video slots have been waiting for! Let's have a look at the best new online slots on the market right now.

Temple of Athena

Temple of Athena is a hot drop slot from Pragmatic Play. It features a 6x5 grid with 20 paylines and a 96.50% RTP. The game has a Greek mythology theme and features symbols such as Athena, the Minotaur, and the Pegasus.

The main feature of this new online game is the hot drop jackpot, which can be won at any time. There are three jackpots available: the hourly jackpot, the daily jackpot, and the Super jackpot.

Rasputin Megaways™

Developed by Blueprint Gaming, this slot features the Megaways™ mechanic, which can create up to 117,649 ways to win. The game has a 96.10% RTP and a top prize of 50,000x your bet. The Megaways™ mechanic means that there are many different ways to win on each spin. The number of ways to win changes with each spin, depending on which symbols land on the reels.

Minesweeper XY

We're sure you remember Minesweeper, but what about the Minesweeper online slot? This is a skill-based game where players try to clear the board without detonating any mines. The game has a 96.00% RTP and its objective is to reveal all of the safe squares on the board without detonating any mines.

To do this, you must click on the squares one by one. If you reveal a safe square, it will be revealed. If you reveal a mine, the game is over.

Kaboom!

Things are getting explosive over at Nolimit City. This high-variance game with a 96.01% RTP. The game features a unique cascading reels mechanic and a Free Spins bonus round with unlimited win multipliers.

The Cascading Reels mechanic means that winning symbols disappear and new symbols fall into their place. This can lead to multiple wins on a single spin. The Free Spins bonus round is triggered by landing 3 scatter symbols. During the free spins round, all wins are multiplied by a random multiplier.

Table Games Casino Premieres

As table game fans know all too well, the gambling online world isn't just online slots. While the gambling industry is chock full of online slots, table games deserve their space! Here are a few great table games that have been released in 2024.

Infinite Blackjack Multihand

Developed by Playtech, this game is an extension of the Infinite Blackjack game. It allows players to bet on up to 8 hands at the same time. This can be a great way to increase your chances of winning, but it also increases your risk of losing, of course. This game has a superb RTP of 99.48%.

Quantum Roulette

This game is a live dealer roulette game that uses a special RNG (Random Number Generator) that is designed to produce more random and unpredictable results.

This is done by using a quantum random number generator, which is a type of RNG that is based on the laws of quantum mechanics. The game has an RTP of 97.30%.

Sic Bo Deluxe

Sic Bo is a dice game that is quite popular in Asia, and it's really simple too. Players bet on the outcome of the roll of 3 dice—that's it! Sic Bo Deluxe adds a new side bet that pays out if all 3 dice land on the same number.

This side bet has a high RTP of 180%, so it can be a great way to increase your chances of winning, although you should always play responsibly.

Maximising Wins in New Casino Games

Now that we've covered the top casino games 2024 has graced us with thus far, let's talk about winning! The whole point of online betting is to win, but don't let that get in the way of having a good time while online gaming.

What new casino sites do to attract players is offer a good Welcome Bonus (bonus cash proportionate to your first deposit amount). There will be some bonus rules and conditions that you should look out for, including wagering requirements and a minimum deposit amount.

Keep in mind that all Deposit Bonuses include some restrictions to the bonus money they provide, so don't jump into a casino bonus without reading through its Terms and Conditions! The newest casino sites might offer the best-looking bonuses, but it is the T&Cs that really matter.

Finally, avoid placing the max. bet when playing slot machines and table games. This will only eat up your funds, since the chances of hitting a lucky win are generally low, especially when you play slots.
